

SUMMER 2019 NEWSLETTER

WELCOME, SUMMER!

Dear Valued Customers,

Welcome to another beautiful New England summer. **2019 for Dupuis Oil means a celebration of over 120 years of honest, high-quality home comfort services.** It is our passion to deliver superior quality oil, propane, and HVAC services to homeowners and businesses in Southeastern Massachusetts and Rhode Island.

No matter what your New England home or business may need, we're here for you throughout each and every season. Right now is the perfect time to evaluate the home energy equipment you'll be using for the rest of the summer, next heating season, and all year long. Not only will high-efficiency equipment save you on energy costs, but Dupuis Oil can help you save by helping you take advantage of installation rebates. Savings doesn't have to stop there—we encourage all our clients to participate in our Rewards and Refer a Friend programs.

We are now into our fourth generation of management and we have been so successful because of your support for our main objective: providing our customers with the absolute best in products and services. Our philosophy is to be dedicated to a positive, responsible, and effective approach to energy conservation. To learn more about how we can provide you with the best year-round home comfort and energy savings, give our office a call at (401) 722-0080 or visit us at www.dupuisenergy.com

Sincerely,

Dupuis Energy

**746 Victory Highway
West Greenwich, RI 02817
(401) 539-8743**

Cut Energy Costs This Summer

- 1** Make sure your home is properly insulated by plugging any air leaks around your windows and doors. By caulking and weather-stripping all seams, cracks, and openings, you can save 10% or more on energy costs annually.
- 2** Replace the air filters in your heating and cooling systems to reduce energy consumption and improve your air quality.
- 3** A programmable thermostat can save up to \$180 a year in energy costs. For most homeowners, this represents about 15% in annual energy costs.
- 4** Upgrade to a high-efficiency heating or cooling system. Save up to 40% on your energy bills and let Dupuis Oil help you take advantage of rebates from Upgrade & Save RI, Mass Save®, and National Grid. Contact us for a free quote and to discuss all the ways you can save.
- 5** Reduce your cost of producing hot water by adding an indirect water tank if you have a tankless boiler or electric water heater with a propane water heater. Consider replacing your hot water heater if it is over 10 years old with a new, high-efficiency unit and watch the savings stack up.

Protect Your Wallet with Our Pricing and Budget Plans

Ceiling Price Plan: Our ceiling price plans protect you from heating oil price spikes with a "ceiling" on the rate you pay for your fuel. These plans set a maximum price per gallon for an amount of gallons that you decide to protect from October 1st until May 31st. If our daily price is lower than the ceiling price, you pay the lower price, but never pay more than the ceiling price. There is a per-gallon insurance fee for these plans.

Easy Payment Plan

- ✓ Spread heating cost over 11 or 12 months starting in July.
- ✓ Enjoy predictable and manageable energy bills.
- ✓ Choose auto pay each month for greater convenience.
- ✓ Benefit from automatic delivery.
- ✓ Peace of mind.

Prepay Plan on the Daily Rate

- ✓ The Prepay rate per gallon will be estimated according to recent oil pricing.
- ✓ You prepay for the average gallons you use for the heating season.
- ✓ Payment must be made in full prior to October 1st.
- ✓ Upon delivery, you will receive \$0.20 per gallon off the daily rate as long as there is a credit in your account.

Prepay Plan with a Ceiling

- ✓ You prepay for the average gallons you use for the heating season.
- ✓ If you have agreed to one of our ceiling plans, you will pay \$0.20 under your ceiling for the amount of gallons you want to prepay for.
- ✓ Upon delivery, customers with a ceiling agreement will receive \$0.20 per gallon off the ceiling rate or the daily rate if the daily rate is lower than the ceiling until the ceiling agreement ends on May 31.
- ✓ After May 31st, you will receive \$0.20 off the daily rate until credit on account is depleted.

Save Hundreds on High-Efficiency Systems

If you'd like to save on your next high-efficiency home comfort equipment, you're in the right place! This will put more money back in your pocket along with other great benefits like reducing your energy usage and fuel consumption. You have two great opportunities to save.

To use these rebates, simply find your new equipment online, have it installed by the experts at Dupuis Energy, then request your rebate from the associations below!

MASS SAVE REBATES

1. Visit MassSave.com.
2. Click Home, then Rebates & Incentives.
3. Browse available savings opportunities.

NATIONAL GRID REBATES

1. Visit NationalGridUS.com.
2. Click Savings & Rebates.
3. Enter your state and equipment to see your savings.

Contact Dupuis Energy today to book your high-efficiency home comfort installation this summer!!

\$25 Off When You Refer a Friend

Know someone who's looking for a more reliable oil provider? Our referral process is simple! Simply refer a friend to Dupuis Oil and once your friend has received their first oil delivery, we will credit your account with \$25.

Don't forget, you can earn even more rewards by liking our Facebook page and signing up for digital receipts!

Get Ready for Summer and Take Advantage of Cool Savings

We know you enjoy warm weather, but does your home? As we try to stay cool during the dog days of summer, you want to be sure your unit is running in top condition. That's why now is the perfect time to have a Dupuis energy professional come to your home for an efficiency tune-up.

Here are just some of the ways your system will benefit from a tune-up:

- Maximize air-flow and efficiency, which in turn improves performance and saves you money on your energy bills
- Minimize the need for unwanted repair and service calls
- Increase the lifespan of your unit through proper maintenance
- Enjoy better indoor air quality by removing debris, dust, and unhealthy particles that can build up in your system

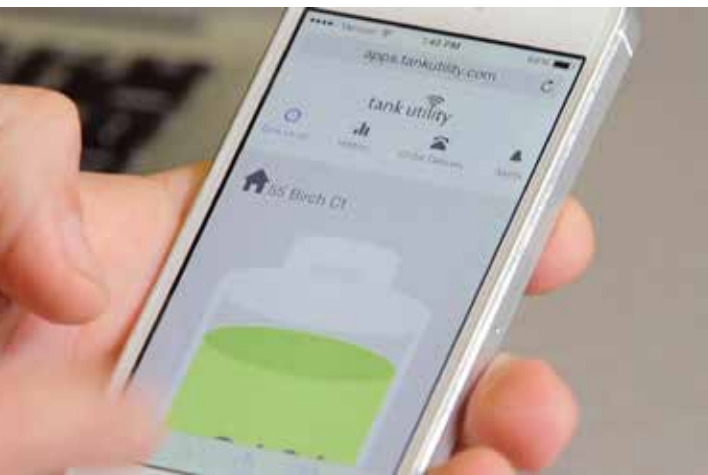

Save Even More with an A/C Service Plan

Whether you have a central A/C unit or a ductless mini-split, our team can keep your system running smoothly all summer long—enroll in our Air Conditioning Service Plan and get your system ready for the upcoming heat waves! Plus, you can save extra when you combine your A/C plan with your existing heating system plan.

SUMMER 2019

Propane Tank Monitoring

Do you use propane to power your home? If so, consider enrolling in Tank Utility's propane tank monitoring system. Eliminate the worry of running out of propane gas. This device monitors the level of fuel in your tank. Wi-Fi tank monitors easily connect to your smartphone, allowing you to set alerts and track your usage. When you get a notification that your propane fuel level is running low, you know to place your next order.

Enjoy more convenience at your fingertips with Tank Utility, available through Dupuis.
